DISPATCH NO. WSSA-1485

CLASSIFICATION

TO : Chief of Station, Munich, Germany

DATE: 16 February 1960

FROM : [ ]

SUBJECT: GENERAL—

SPECIFIC— <sup>0</sup> Current Tirralirra - Tiebar Commo Arrangement

References: a) MUNI F-1040, paragraph 3  
b) WSSA-956 (Not sent to Munich)

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCE METHOD EXEMPTION 3B26  
NAZI WAR CRIMES DISCLOSURE ACT  
DATE 2006

1. On 13 February Tirralirra was contacted for the purpose of determining the current Tirralirra - Tiebar commo arrangement in connection with the Lithuanian phase of the Tilestone operation and to determine whether or not the Lithuanian cipher materials and commo plans are available to Tirralirra.

2. In this connection Tirralirra stated that the actual cipher materials and commo plan are no longer available to him. Only during the initial phase of the operation did he have access to the actual cipher material. Since this time he has participated as a translator with all the mechanics of encipherment and decipherment of messages being handled by the Tiebars. Therefore it is obvious that it would be embarrassing and probable impossible for Tirralirra to examine the cipher material and commo plans at this time. He feels, however, that no pertinent changes have been made in the original plans concerning the Lithuanian stations.

3. Due to the fact that the Tiebars have, with the exception of the initial period, maintained complete control of the ciphers and commo plans, it is highly unlikely for the future and for the time being impossible for us to obtain the current cipher data from Tirralirra.

4. The original cipher and commo plans furnished us by Tirralirra on the Lithuanian stations were forwarded to headquarters as an attachment to our WSSA-956.

5. Any future possibility arising in this connection will be promptly exploited and the results forwarded to you.
